

# The need to replace **Missing Teeth**

With

**Artificial Dentures**

If missing teeth are not replaced by Artificial Dentures , the following problems can occur ...

1

There will be  
**difficulty in chewing !**

Improper chewing causes

**Indigestion  
& Gastric problems**

2

**Difficulty  
in speech !**

3

**Cheeks shrink inside  
to the toothless area**

**Giving an  
older appearance  
to the face !**

4

**The remaining teeth  
drift to the space  
of the missing tooth area**

**This causes  
mobility of other teeth!**

**If missing teeth are not replaced...**

**More teeth may have to be  
removed in future !**
